SenecAI COMPLIANCE

REGULATION (EU) 2024/1689

EU AI ACT

WHAT

Risk-based rules for AI systems and general-purpose AI models: prohibited, high-risk, transparency and minimal-risk tiers.

WHO

Providers, deployers, importers and distributors, including non-EU companies whose AI is used in the EU.

Fines up to €35M or 7% of global turnover.

REGULATION (EU) 2016/679

GDPR

WHAT

Any processing of personal data of people in the EU, including AI training, inference and log data.

WHO

Controllers and processors, wherever they are based.

Fines up to €20M or 4% of global turnover.

DIRECTIVE (EU) 2022/2555

NIS2

WHAT

Cybersecurity risk management and incident reporting: early warning in 24h, notification in 72h.

WHO

Medium and large “essential” and “important” entities across 18 sectors.

Management can be held personally liable.

REGULATION (EU) 2022/2554

DORA

WHAT

ICT risk management, incident reporting, resilience testing and a register of ICT third parties.

WHO

Banks, insurers, investment, payment, e-money and crypto firms, and the ICT providers serving them.

In force since 17 January 2025.

REGULATION (EU) 2024/2847

CYBER RESILIENCE ACT

WHAT

Security by design, vulnerability handling and an SBOM for hardware and software with digital elements.

WHO

Manufacturers, importers and distributors of connected products sold in the EU.

Reporting from 11 Sept 2026; most duties from 11 Dec 2027.

ISO/IEC 27001 · ISO/IEC 42001

ISO 27001 & 42001

WHAT

Certifiable management systems for information security (ISMS) and AI (AIMS).

WHO

Voluntary, but increasingly requested by enterprise buyers and investors.

Overlap heavily with NIS2, DORA and the AI Act.

HOW WE WORK

ONE PROGRAMME. EVERY FRAMEWORK.

Risk management, incident reporting, supplier management and documentation overlap. We build the controls once and map them to every regulation that applies to you.
